Mr. David Ye, Co-founder, Chairman and Chief Executive Officer of Jianpu, commented, "We are pleased that we continued to fulfill our mission to become everyone's financial partner, amidst a challenging and fast changing industry dynamics in the past quarter. We achieved continued growth in our credit card and big data and risk management services for the second quarter of 2019."

"Despite the short-term headwinds and macro uncertainties, we are encouraged by the recent policy change in terms of digital platform economy and interest liberalization. In the medium to long term, we remain confident about our growth and performance. We will continue to execute our balanced strategy in the second half of 2019 and are committed in exploring new initiatives to further enhance and strengthen our core capability of capturing the evolving dynamics of the market," concluded Mr. Ye

"We realized total revenues of RMB362.3 million in the second quarter of 2019 and we're pleased that the credit card business remains strong, delivering a 24.5% year-over-year growth, driven by both volume growth and unit price increases," said Oscar Chen, Chief Financial Officer of Jianpu. "Our big data and risk management services continued to show strong momentum in the second quarter of 2019, by delivering a 139% year-over-year growth. Anticipating macro headwinds and industry volatility in the near term, we strive to maintain a balanced strategy with profitability and margins in mind into the second half of 2019."

Second Quarter 2019 Financial Results

Total revenues for the second quarter of 2019 decreased by 26.1% to RMB362.3 million (US\$52.8 million) from RMB490.4 million in the same period of 2018.

Total revenues from recommendation services decreased by 32.0% to RMB299.9 million (US\$43.7 million) in the second quarter of 2019 from RMB441.0 million in the same period of 2018.

Revenues from recommendation services for credit cards increased by 31.8% to RMB196.5 million (US\$28.6 million) in the second quarter of 2019 from RMB149.1 million in the same period of 2018, due to the increase in both credit card volume and average fee per credit card. Credit card volume for recommendation services^[4] in the second quarter of 2019 was approximately 1.8 million, representing an increase of approximately 20.0% from the same period of 2018. The average fee per credit card for recommendation services increased to RMB108.14 (US\$15.75) in the second quarter of 2019 from RMB99.47 in the same period of 2018.

Revenues from recommendation services for loans decreased by 64.6% to RMB103.4 million (US\$15.1 million) in the second quarter of 2019 from RMB291.9 million in the same period of 2018, due to the decrease in number of loan applications on the Company's platform. The number of loan applications on the Company's platform was approximately 5.7 million in the second quarter of 2019, representing a decrease of approximately 73.1% from the same period of 2018. The decrease was mainly attributable to the Company's voluntary suspension of its mobile apps downloads since mid March, 2019, as one of the Company's measures for conducting review of its business practice in response to CCTV report and fast changing industry dynamics. The average fee per loan application increased to RMB18.18 (US\$2.65) in the second quarter of 2019 from RMB13.78 in the same period of 2018.

Revenues from advertising and marketing services and other services increased by 26.1% to RMB62.3 million (US\$9.1 million) in the second quarter of 2019 from RMB49.4 million in the same period of 2018, primarily due to a 139% increase in revenues from big data and risk management services including that generated by a subsidiary acquired in June 2018. The increase was partially offset by the decrease in the advertising and marketing services as the Company slowed down the pace of certain advertising business given the lower efficiency amidst challenging macroeconomic environment.

Cost of revenues decreased by 58.7% to RMB24.4 million (US\$3.6 million) in the second quarter of 2019 from RMB59.1 million in the same period of 2018. The decrease was primarily attributable to the decrease in direct costs relating to advertising and marketing services revenue, partially offset by the increase of the bandwidth and server costs.

Gross profit decreased by 21.6% to RMB337.9 million (US\$49.2 million) in the second quarter of 2019 from RMB431.2 million in the same period of 2018. The decrease was primarily attributable to revenue decline. Gross margin was 93.3% in the second quarter of 2019, compared with 87.9% in the same period of 2018.

Sales and marketing expenses decreased by 24.4% to RMB318.4 million (US\$46.4 million) in the second quarter of 2019 from RMB421.0 million in the same period of 2018. The decrease was mainly due to decrease in traffic acquisition costs.

Research and development expenses increased by 39.6% to RMB73.3 million (US\$10.7 million) in the second quarter of 2019 from RMB52.5 million in the same period of 2018, primarily due to the increase in payroll costs mainly related to the hiring of new R&D staff, including that of the subsidiary acquired in June 2018 to further enhance technology capabilities in terms of big data, machine learning and artificial intelligence, as well as the increase of the amortization of the intangible assets in connection with the acquisition of a subsidiary in June 2018.

General and administrative expenses increased by 6.1% to RMB40.1 million (US\$5.8 million) in the second quarter of 2019 from RMB37.8 million in the same period of 2018. The increase was primarily due to increase in payroll costs, as well as increase in professional fees, partially offset by the decrease in recognition of share-based compensation expenses.

Share-based compensation expenses recognized in cost of revenues, sales and marketing expenses, research and development expenses and general and administrative expenses in total were RMB27.9 million (US\$4.1 million) in the second quarter of 2019 and RMB32.6 million in the same period of 2018. The decrease was due to graded vesting method used and less share-based awards granted in this quarter.

Income tax benefits were RMB2.1 million (US\$0.3 million) in the second quarter of 2019, compared with the income tax benefits of RMB11.2 million in the same period of 2018. Contributed by the optimization of the cost and expenses structure, the annualized tax rate for 2019 decreased. The Company's domestic subsidiaries completed their 2017 annual tax filings with relevant tax authority by the end of May 2018, which resulted in a change of tax positions in the income tax provision and deferred tax assets recognized as of December 31, 2017, the effect of the change was RMB12.5 million recognized in the second quarter of 2018.

Net loss was RMB84.9 million (US\$12.4 million) in the second quarter of 2019, compared with a net loss of RMB61.1 million in the same period of 2018. Net loss margin was -23.4% in the second quarter of 2019, compared with a net loss margin of -12.5% in the second quarter of 2018.

Non-GAAP adjusted net loss, which excluded share-based compensation expenses from net loss, was RMB56.9 million (US\$8.3 million) in the second quarter of 2019, compared with adjusted net loss of RMB28.5 million in the same period of 2018.

Non-GAAP adjusted EBITDA^[5], which excluded share-based compensation expenses, depreciation and amortization, interest income and expenses, and income tax benefits from net loss, for the second quarter of 2019 was a loss of RMB51.1 million (US\$7.5 million), compared with a loss of RMB36.3 million in the same period of 2018.

As of June 30, 2019, the Company had cash and cash equivalents, restricted time deposits and short-term investment of RMB1,205.1 million (US\$175.5 million), and working capital of approximately RMB1,227.2 million (US\$178.8 million). Compared to as of December 31, 2018, cash and cash equivalents, restricted time deposits and short-term investment decreased by RMB285.8 million (US\$41.6 million), which was mainly attributable to net cash used in the Company's share repurchase program and operations.

First Six Months 2019 Financial Results

Total revenues for the first six months of 2019 increased by 23.1% to RMB1,017.1 million (US\$148.2 million) from RMB826.0 million in the same period of 2018.

Total revenues from recommendation services increased by 20.7% to RMB881.8 million (US\$128.4 million) in the first six months of 2019 from RMB730.3 million in the same period of 2018.

Revenues from recommendation services for credit cards increased by 24.3% to RMB345.8 million (US\$50.4 million) in the first six months of 2019 from RMB278.3 million in the same period of 2018, due to the increase in both credit card volume and average fee per credit card. Credit card volume for recommendation services^[4] in the first six months of 2019 was approximately 3.2 million, representing an increase of approximately 14.3% from the same period of 2018. The average fee per credit card for recommendation services increased to RMB107.40 (US\$15.64) in the first six months of 2019 from RMB98.38 in the same period of 2018.

Revenues from recommendation services for loans increased by 18.6% to RMB536.0 million (US\$78.1 million) in the first six months of 2019 from RMB452.0 million in the same period of 2018, due to the increase in average fee per loan application. The number of loan applications on the Company's platform was approximately 30.1 million in the first six months of 2019, representing a decrease of approximately 9.6% from the same period of 2018. The average fee per loan application increased to RMB17.81 (US\$2.59) in the first six months of 2019 from RMB13.59 in the same period of 2018.

Revenues from advertising and marketing services and other services increased by 41.4% to RMB135.3 million (US\$19.7 million) in the first six months of 2019 from RMB95.7 million in the same period of 2018, primarily due to the increase in revenues from big data and risk management services including that generated by a subsidiary acquired in June 2018. The increase was partially offset by the decrease in the advertising and marketing services as the Company slowed down the pace of certain advertising business given the lower efficiency amidst challenging macroeconomic environment.

Cost of revenues decreased by 25.9% to RMB80.3 million (US\$11.7 million) in the first six months of 2019 from RMB108.4 million in the same period of 2018. The decrease was primarily attributable to the direct costs relating to advertising and marketing services revenue, partially offset by the increase of depreciation costs, bandwidth and server costs and short message service fees.

Gross profit increased by 30.5% to RMB936.8 million (US\$136.5 million) in the first six months of 2019 from RMB717.6 million in the same period of 2018. The increase was primarily attributable to revenue growth. Gross margin was 92.1% in the first six months of 2019, compared with 86.9% in the same period of 2018.

Sales and marketing expenses increased by 12.7% to RMB766.6 million (US\$111.7 million) in the first six months of 2019 from RMB680.0 million in the same period of 2018. The increase was mainly due to growth in traffic acquisition cost related to the rewards to business partners for promotion in social network and social media platform, and payroll related costs.

Research and development expenses increased by 62.1% to RMB155.6 million (US\$22.7 million) in the first six months of 2019 from RMB96.0 million in the same period of 2018, primarily due to the increase in payroll costs mainly related to the hiring of new R&D staff, including that of the subsidiary acquired in June 2018 to further enhance technology capabilities in terms of big data, machine learning and artificial intelligence, as well as the increase of the amortization of the intangible assets in connection with the acquisition of a subsidiary in June 2018.

General and administrative expenses increased by 14.8% to RMB92.5 million (US\$13.5 million) in the first six months of 2019 from RMB80.6 million in the same period of 2018. The increase was primarily due to increase in payroll costs, as well as increase in professional fees, partially offset by the decrease in recognition of share-based compensation expenses.

Share-based compensation expenses recognized in cost of revenues, sales and marketing expenses, research and development expenses and general and administrative expenses in total were RMB56.6 million (US\$8.2 million) in the first six months of 2019 and RMB69.9 million in the same period of 2018. The decrease was due to graded vesting method used and less share-based awards granted in the first half of 2019.

Income tax benefits were RMB2.5 million (US\$0.4 million) in the first six months of 2019, compared with the income tax benefits of RMB11.2 million in the same period of 2018. Contributed by the change of the cost and expenses structure, the annualized tax benefit rate for 2019 decreased. In addition, the Company's domestic subsidiaries completed their 2017 annual tax filings with relevant tax authority by the end of May 2018, which resulted in a change of tax positions in the income tax provision and deferred tax assets recognized as of December 31, 2017, the effect of the change was RMB12.5 million recognized in the second quarter of 2018.

Net loss was RMB66.1 million (US\$9.6 million) in the first six months of 2019, compared with a net loss of RMB118.2 million in the same period of 2018. Net loss margin was -6.5% in the first six months of 2019, compared with a net loss margin of -14.3% in the same period of 2018.

Non-GAAP adjusted net loss, which excluded share-based compensation expenses from net loss, was RMB9.5 million (US\$1.4 million) in the first six months of 2019, compared with adjusted net loss of RMB48.3 million in the same period of 2018.

Non-GAAP adjusted EBITDA^[5], which excluded share-based compensation expenses, depreciation and amortization, interest income and expenses, and income tax benefits from net loss, for the first six months of 2019 was an income of RMB5.3 million (US\$0.8 million), compared with a loss of RMB54.8 million in the same period of 2018.

^[4] Credit card volume for recommendation services is the credit card volume as referred to in the preceding note 1 minus the credit card volume for advertising and marketing services; Revenues from recommendation services for credit cards is revenues from credit cards as referred to in the preceding note 1 minus revenues from advertising and marketing services for credit cards.

^[5] Non-GAAP adjusted EBITDA represents EBITDA before share-based compensation expenses. EBITDA represents net (loss)/income before interest, tax, depreciation and amortization. See "Unaudited Reconciliations of GAAP and Non-GAAP Results" for more details.

Share Repurchase Program

On August 24, 2018, the Company announced that its board of directors had approved a share repurchase program to repurchase its own Class A ordinary share in the form of American depositary shares ("ADSs") with an aggregate value of up to US\$20 million during the next twelve-month period.

On February 22, 2019, the board of directors of the Company (the "Board") has approved a new share repurchase program, under which the Company may repurchase up to US\$10 million of ADSs during the next twelve-month period.

As of August 25, 2019, the Company had repurchased approximately US\$29.7 million of ADSs under these programs.

Outlook

The Company anticipates the external environment to remain uncertain and challenging in the third quarter. Although our app has been fully re-launched, the impact from the voluntary suspension may also have some lagging effect into the coming quarter. Based on the Company's current estimates, we expect our total revenues for the third quarter of 2019 to be approximately RMB 300-320 million.

Use of Non-GAAP Financial Measures

The Company uses adjusted EBITDA and adjusted net (loss)/income, each a non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes.

The Company believes that adjusted EBITDA and adjusted net (loss)/income help identify underlying trends in our business that could otherwise be distorted by the effect of the expenses and gains that the Company include in (loss)/income from operations and net (loss)/income. The Company believes that adjusted EBITDA and adjusted net (loss)/income provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Adjusted EBITDA and adjusted net (loss)/income should not be considered in isolation or construed as alternatives to net (loss)/income or any other measure of performance or as indicators of our operating performance. Investors are encouraged to review the historical non-GAAP financial measures to the most directly comparable GAAP measures. Adjusted EBITDA and adjusted net (loss)/income presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting their usefulness as comparative measures to our data. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure.

Adjusted EBITDA represents EBITDA before share-based compensation expenses. EBITDA represents net (loss)/income before interest, tax, depreciation and amortization.

Adjusted net (loss)/income represents net (loss)/income before share-based compensation expenses.

For more information on this non-GAAP financial measure, please see the table captioned "Unaudited Reconciliations of GAAP and non-GAAP results" set forth at the end of this press release.

* The Company has adopted Accounting Standards Update No. 2016-02, Leases, beginning January 1, 2019 on a modified retrospective basis. As a result, the Company recognized approximately RMB28.5 million of right-of-use assets recorded in other non-current assets, and corresponding short-term leasing liabilities recorded in accrued expenses and other current liabilities and long-term leasing liabilities recorded in other non-current liabilities respectively on the consolidated balance sheet as of June 30, 2019. The Company elected not to recognize lease assets and liabilities for leases with a term of 12 months or less. The adoption had no impact on the Company's consolidated statements of comprehensive loss for the quarter ended June 30, 2019 or the opening balances of accumulated losses as of January 1, 2019.
