

Jianpu Technology Inc. Announces Receipt of NYSE Non-compliance Letter Regarding ADS Trading Price

BEIJING, Oct. 2, 2023 /PRNewswire/ -- Jianpu Technology Inc. ("Jianpu" or the "Company") (NYSE: JT), a leading independent open platform for discovery and recommendation of financial products in China, today announced that it has received a letter from the New York Stock Exchange (the "NYSE") dated September 28, 2023, notifying the Company that (i) it is below compliance standards due to the trading price of Company's American depository shares (the "ADSs") and (ii) the applicable cure period for the Company to regain compliance expires on March 28, 2024.

Pursuant to NYSE rule 802.01C, a company will be considered to be below compliance standards if the average closing price of a security as reported on the consolidated tape is less than \$1.00 over a consecutive 30 trading-day period. Once notified, the company must bring its share price and average share price back above \$1.00 within the applicable cure period following receipt of the notification. The company can regain compliance at any time during the cure period if on the last trading day of any calendar month during the cure period the company has a closing share price of at least \$1.00 and an average closing share price of at least \$1.00 over the 30 trading-day period ending on the last trading day of that month. In the event that at the expiration of the cure period, both a \$1.00 closing share price on the last trading day of the cure period and a \$1.00 average closing share price over the 30 trading-day period ending on the last trading day of the cure period are not attained, the NYSE will commence suspension and delisting procedures.

To address this issue, Jianpu intends to monitor the market conditions of its listed securities and is still considering its options.

About Jianpu Technology Inc.

Jianpu Technology Inc. is a leading independent open platform for the discovery and recommendation of financial products in China. The Company connects users with financial service providers in a convenient, efficient, and secure way.
